

CONFERENCE SCHOLARSHIP GUIDELINES

The purpose of the Conference Scholarship is to enable degree fellows and student affiliates at the East-West Center to present scholarly work at professional conferences and meetings with a national, regional or international reputation. Support will only be available to participants who have been formally invited to present a scholarly paper or poster and who have not previously received EWC funding for conference travel. Limited funding is available and selection for funding is competitive. Funding may be used for airfare and conference fees only. **Air travel must be on U.S. carriers.** Funding is limited to \$1000.

ELIGIBILITY

1. All degree fellows and student affiliates who will be on active award status at the time of the conference and who are citizens or permanent residents of the US and Asian and Pacific countries are eligible to apply.
2. No more than one Conference Scholarship per student participant may be funded during their time at EWC.
3. The applicant must be presenting an original work at a recognized meeting/conference. Research paper and research poster presentations are eligible for support, but training sessions, workshops, and consortia are not.
4. The applicant must list East-West Center affiliation within the paper and abstract to be presented and in the meeting or conference program. Be precise. For example:
 - East-West Center Graduate Degree Fellow
 - East-West Center Student Affiliate

Only completed applications will be reviewed by the Conference Scholarship Committee. It is the responsibility of the applicant to ensure that their application is complete. Failure to comply with submitting any of the above materials will be cause for eliminating an application from consideration or rescinding a conference scholarship.

SELECTION PROCESS

A conference scholarship committee will review the applications. The committee will not consider any materials submitted after the application deadline but may ask for clarification of the materials submitted. The following criteria will be used to evaluate the applications.
