

## EWC Housing Weekly Update - February 18

- **New Off-Island Travel Policy:** The EWC is implementing a new policy for off-island travel from now until the end of the Spring semester (May 15, 2021). As per the current policy, all residents who travel must spend two weeks in self-isolation or quarantine in Lincoln Hall *at their own expense*. **Starting February 18, the cost for Lincoln Hall will now be the official participant rate of \$USD33/night for a studio (non-kitchen) room, and \$57/night for a kitchen room.** In addition, students must retain and pay for their current room in HM or HK while they are away and throughout their stay at LH. Please see the attached document for the full policy, and you will be able to find it on the Covid-19 page of the [student portal website](#) tomorrow. If you have any questions or concerns, please reach out to Housing Staff or your Program Coordinator.

Given the increased risks and many unknowns posed by the new variants, it is the EWC's goal that students NOT travel between now and the end of the semester. We don't yet know what summer will bring, but we are hopeful that with more widespread vaccines there can be more flexibility at that time. As you know, there are many unknowns with this virus, and it is difficult to predict the future. However, we understand that many of you are starting to make summer plans and considering travel as part of work, study or to see family
