**Housing**

## **Single-Gender Floor(s) at Hale Mānoa Usage Guidelines**

The living units and bathrooms on the 6th and 9th floor(s) of Hale Mānoa are designated for single-gender residents while the rest of Hale Mānoa, including Floor 6 and 9 common areas –kitchens, laundry, and lounges—are mixed gender.

**Living Units on Floor(s) 6 and 9:** *All areas within the physical living unit(s) on floor(s) 6 and 9 (unit bathroom, unit storage, dorm room, etc.) are designated as single-gender spaces. 6<sup>th</sup> floor living units are intended for only female residents (including gender, gender identity, or assigned female at birth) and 9<sup>th</sup> floor units are intended for only male residents (including gender, gender identity, or assigned male at birth).*

Residents living on these floor(s) who wish to bring a visitor of a different gender into their living units are strongly encouraged to check with their unit mates beforehand. Residents are asked to be respectful of their unit mates' needs or preferences concerning visitors of a different gender. Visitors of another gender are **not allowed** to use the unit bathroom. Visitors may use a bathroom in nearby upstairs or downstairs units which are designated for mixed-gender use.

**Common Spaces on Floor(s) 6 and 9:** All residents, regardless of which floor they live on and/or their gender identity, are permitted to visit/make use of common spaces on all floors throughout Hale Mānoa, including floor(s) 6 and/or 9. Common spaces include the community kitchens, lounges, laundry rooms and/or any public area outside of the living units.
